'Steak & Security'

- Identity And Access Management
- CLOUD IAM
- Federation
- SSO: Single Sign-On
- Authentication
- Entitlement Management
- Identity Intelligence
- RBAC : Role Based Access Control
- GRC : Governance, RISK, COMPLIANCE

Security is often seen as something the IT staff manages. Increased regulatory compliance requirements and competition mean your organization has got to find ways to shift spending to innovations and away from manual processes, lengthy audit disruptions, and of course, security risks. You will hear about the business values of automated identity and access management.

Guest Speakers

Gautam Dev

Mr. Dev is an information and application security industry leader. Mr. Dev has presented at many prestigious forums such as Gartner and Security Vendor Brainshares. Mr. Dev currently heads the Enterprise Security Services Practice for Application and Data Security with *intiGrow* partner *Wipro Technologies* for North America.
